

SUMMER of Science Camps

The time has come once again to start thinking about your summer plans. What better way to keep your kids engaged than to send them to the World of Wonders Science Summer Camp! This summer we offer 4 camps that are designed to activate those inquiring minds.

Explore the science behind magic with our 'Explainable Magic' camp June 10th-14th

Dazzle your taste buds with our 'Tasty Science' camp June 17th-21st

Bring out your inner chemist with our 'Calling all Chemists' camps. Two identical camps July 8th-12th and July 15th-19th

'Explainable Magic'

Ages 7-12 • June 10th-14th

Magic Science Summer Camp was such a hit last summer that we decided to do it again! This year we have added more tricks up our sleeves. Join the World of Wonders as we explore what goes on behind the scenes of a science magic show. With the help of a real magician, we will spend the week learning about science as 'explainable magic'. WOW your friends and family with the tools and tricks to create your very own magic show. Parents will be invited on the last day of camp to watch their children perform a real live magic show.

'Tasty Science'

Ages 7-12 • June 17th-21st

You are what you eat, so why not learn all about the foods you put in your body? This summer come join the World of Wonders as we explore food! From molecular gastronomy to health and nutrition campers will do a variety of science experiments that they can eat! With a little knowhow and a pinch of fun, you can become an amazing gastronome! Bring your appetite and your thirst for knowledge to enjoy a week filled with edible fun! Parents will be invited on the last day of camp to watch their children perform a cooking demonstration.

'Calling all Chemists!'

Ages 7-12 • July 8th-12th or July 15th-19th

Come join us for an explosive week of chemistry fun! Discover how chemistry is all around us and watch what happens when we mix common household agents together. Through explosions and reactions campers will surely be in their 'element' as they learn all about acids, bases and chemical reactions. Campers will wrap up the week with a chemistry show for their family.
